PAIRING TO BLUETOOTH DEVICE

Please ensure the Bluetooth function is available on your electronic device. Specific pairing procedures may vary slightly depending on the device. For detailed information, please refer to your device's User Guide.

- After successful pairing, devices will remember each other, therefore no pairing will be needed next time.

1. Keep the distance between the device and the microphone within 3 feet (for pairing only).
2. Turn microphone Off using power button.
3. Activate the Bluetooth function on your device to search for Bluetooth devices. Look for "Tzumi Popsolo Glow" in device list displayed and select.
4. If prompted for password, Enter: 0000.
5. Microphone is now ready for use.

BUILT-IN SMARTPHONE HOLDER

Built-in retractable phone holder is perfect for when you want to sing along while looking at the phone screen.

- STEP 1: Open the phone holder by pulling it up.
- STEP 2: Place the phone into the bracket.
fits smartphones up to 6 inches.

RECORDING WITH MICROPHONE

Note: Only records via auxiliary cable. Bluetooth must be turned off.

1. Insert the Micro-USB cable to your phone, plug the Micro-USB cable into the bottom of the microphone base.
2. Open your favorite karaoke app. Follow the instructions in the app and start recording.
3. When you are done recording, there are 2 ways to listen to your voice:

LISTEN THROUGH THE MICROPHONE SPEAKERS:

Keep your phone plugged into the microphone and ready your video.

LISTEN THROUGH YOUR PHONE:

Unplug your phone from the microphone, turn the microphone off and display your video.

Please note - iPhone? If it up does not have auxiliary jack. You will need an adapter to use this feature.

CHARGING THE MICROPHONE

1. When battery is low, the unit will automatically shut off.
2. Connect the Micro-USB cable from the microphone to a USB power source. The LED indicator will light up red.
3. Charging will take about 4 hours. When the unit is done charging, the red light will shut off.

Note: You may use your microphone while it's charging.

FAQ / TROUBLESHOOTING

Q: Why is Bluetooth not pairing?

A: The distance between your phone and the device may be too far. Bring the devices close together. OR the unit may already be paired with another device in range. Unpair the unit from the other device.

Q: Why does the microphone not turn on?

A: Make sure the unit is fully charged before use. The microphone will not turn on if battery level is very low. Blue light indicates a weak or no charge.

Q: Why is there sound distortion or static when playing music?

A: Your phone's signal may be weak, the volume may be too high or the battery power of the unit may be too low. Check the volume on both the device and your phone and make sure the microphone is fully charged.

Q: Why is there lost feedback when I start to record via microphone?

A: Some apps are incompatible with external audio input and operate best with headphones, thus making loud noise when recording via the microphone. Try another app that is compatible with external audio input.

Q: Why won't my recording play back though I heard it clearly while recording?

A: PopSole Glow by most premium life with karaoke apps that don't require headphones. PopSole Glow should be connected to your phone via 3.5 mm headphone jack to be recognized and work best. If your vocals are not recorded, the app most likely does not support your device. Try using a different app or a device with a different operating system.

IMPORTANT SAFEGUARDS

- Do not use this unit for anything other than its intended use.
- Keep the unit away from heat, flame, direct sunlight, humidity, water or any other liquid.
- Do not expose the device to extremely high or low temperatures, as it may damage the battery.
- Do not expose the unit if it has been wet or moist to prevent against electric shock or injury to yourself and damage to the unit.
- Do not use the unit if it has been dropped or damaged in any way.
- Repairs to electrical equipment should only be performed by a qualified electrician. Improper repairs may place the user at serious risk.
- Keep the unit out of reach of infants.
